#2: Subject: ⚙️ ⚙️ **This is something you'll seriously won't want to miss** ⚙️ ⚙️

Dear seeker,

Why pay for A.I automation, Web Hosting, Autoreponders, Chatbots, HQ Video Editors, PLR, Media Creation Stock, Make Money Online Tutorials - when you can access them all in one place - along with 60 other items.

Yes - just very occasionality - something genuinely amazing comes along. But will you miss out - because you believe it's yet another over-hyped marketing ploy?

Here we have a vast selection, which will help boost and accelerate your online business for years to come - all for just a single \$24.95 - no strings.

See exactly what you are getting for just \$24.95 here: [\[YOUR SHORTENED AFFILIATE LINK\]](#)

Recently, one of our beta testers happened to mention during a conversation, initially about something else...

*"I simply love that ThriftyWorks. Definitely the best product I've tested to date. And I'm so pleased I got to test it, and can continue to use it. This will save me loads. I couldn't believe that all of these kinds of things were available at no cost. I bet people will love it".*

Tell me - does the following ring any bells?...

You visit a really amazing (and long) sales page - telling you that the latest new AI system will start making you money - with no work, almost instantly? If only.

And if like me - maybe you've been drawn in with the sales hype - made the purchase, and maybe even the up-sells - only to end up disappointed.

Maybe you've only ever re-visited that products members login area, just a few more times - before moving on, never to return. This is known as 'shiny object syndrome' - and it happens a lot.

It can be so exciting - thinking, "this will be the answer to my dreams - my way to make some decent money". Sadly, all that glitters is not gold.

So how about something completely different? Fantastic value for your hard-earned buck. A complete toolkit of just about everything you could possibly need to succeed online - all in one place.

Some of the contents has been developed, upgraded and supported, over many years. Such as the ultra-premium video editing suite software - as used by Hollywood - which can be used indefinitely for no charge, and with no watermarks.

I've used many of the ThriftyWorks content, to actually build the high-quality ThriftyWorks members platform, and its sales pages - again at no additional costs. Some of the high-quality products It's likely, you've never heard of them.

There are many people who don't want you to know about this no-cost software, tools, products and services within our members area - simply because they'd like to sell you the same, or even an inferior version - for a healthy profit.

But there's so much out there, if you know where to look - or you're prepared to spend the hundreds of hours locating and testing as we have. Knowledge is power - and with ThriftyWorks, we'll empower you to build or develop your own profiteering online ventures - without having to spend anything up front.
